Draft Indicative Terms of Reference (ToR) for Office Management Executive (OME)

Background and Objective of the Project:

1. The Govt. of Assam has created the Assam Rural Infrastructure and Agricultural Services (ARIAS) Society in November 1998, as an autonomous body, headed by the Chief Secretary, Assam as its President (Project Guidance Council) and the Agriculture Production Commissioner, Assam as the Chairman (Governing Body). The Project Management Unit (PCU) is headed by a State Project Director. The key mandate of the Society is to function as an apex autonomous body of the Govt. of Assam for monitoring, coordination and/or implementation of World Bank or any other externally financed/aided Projects or other Projects of any department as may be authorized by Govt. of Assam from time to time.
2. The Society has successfully completed two World Bank aided projects (ARIASP: 1995-2004 and AACP: 2005-2011 including AACP-AF: 2012-2015) and the World Bank has rated performance of these projects as Satisfactory. The Society contributed in mainstreaming many of the good practices that emerged from the projects into various schemes of the State Government. ARIAS Society has proved to be a path finder and innovator in the areas of targeting the intended beneficiaries, employment generation, reaching out to the vulnerable and the disabled and overall good governance and social accountability.
3. The Government of Assam (GoA) is committed to improve governance in the state and public sector performance. It has already embarked upon a number of specific initiatives to support this objective. They include: the Right to Public Service Act (RTPS), RTI, a public grievance redress system, e-District, Common Service Centers, and establishment of State e-Governance infrastructure.
4. Affordable access to public services, especially for the poor people, is one of the key imperatives for inclusive growth. The Government of Assam (GoA) is committed to improve governance in the state and public sector performance and has recognized the need to strengthen the delivery of citizen-centric service, and had therefore enacted the Assam Right to Public Services Act, 2012 (ARTPS) to ensure citizens' access to public services in timely, efficient and accountable manner. The Act enables the citizens of Assam to get notified public services within a stipulated timeframe and also fixes responsibilities on public servants to provide these services in a time-bound manner. GoA has also embarked upon a number of specific initiatives to support this objective, a public grievance redress system, e-District, Common Service Centers, and establishment of State e-Governance infrastructure.
5. To strengthen and deepen these initiatives, GoA has received a \$39.20 million loan from the World Bank financed towards the 'Assam Citizen-Centric Service Delivery Project' (ACCSDP) [Project ID: P150308, IBRD Loan No. 8754-IN]. The ACCSDP aims to improve citizen access to targeted services under the ARTPS, particularly in remote areas. Citizens, especially the rural communities who are heavily dependent on government services, will be the principal beneficiary group of the project. The project will place citizens at the center of the service delivery process by strengthening feedback mechanisms and grievance redress.
6. ACCSDP will facilitate implementation of the ARTPS Act with efficiency and accountability for better delivery of citizen-centric services under ARTPS Act and will support the line Deptts. A high-level delivery unit will be established to monitor the implementation of the ARTPS Act. A blend of technological interventions and administrative reforms for 18 key services will be taken-up initially under the project in four Govt. agencies, viz. Transport, Revenue & Disaster Management, and Welfare of Plain tribes & Backward Classes (WPT&BC Deptts). and the Guwahati Municipal Corporation. The project will assist implementing line departments/agencies in restructuring business processes so that citizens can access services digitally within the given timeline of ARTPS Act.
7. The Project Development Objective is to improve access in the delivery of selected public services in Assam.

ACCSDP also aims to strengthen institutional operations and improve citizen awareness and participation in order to expand access to services to benefit the rural poor. This inclusive approach will contribute to access improvements in four key ways: (i) by expanding the number of Right to Public Services Act (RTPS) services which are digitized and available on-line; (ii) by improving connectivity infrastructure especially in underserved areas to enhance citizen access to services; (iii) by engaging local populations in service delivery (through both participatory and digital approaches) so that targeted priority services for the rural communities are accessible; and (iv) by rationalizing and strengthening service delivery by front-line institutions. This project design is pivoted around four interrelated components: (i) strengthening RTPS implementation; (ii) improving service delivery processes in targeted departments; (iii) setting up Public Facilitation Centers (PFCs) to receive requests for RTPS services and electronically deliver select services to the citizens closer to their homes; and (iv) promoting citizen engagement.

8. These key components of the project namely digitization of services, ICT infrastructure, citizen engagement, front-line delivery institutions, and change management would be managed through the Project Management Unit (PMU) under the ARIAS Society, led by a State Project Director (SPD) and would have *inter alia* the following staff/consultants:
